RECITALS

I. Program Description

CharterStart is a voluntary program available to individuals and founding groups who are seriously interested in submitting charter school applications to a charter school authorizer in Georgia. Two options are offered for CharterStart:

- 1. The CharterStart Program** is a comprehensive and targeted training program provided as a service of the Georgia Charter Schools Association. As provided herein, CharterStart will support founding groups through technical and hands-on assistance through the petitioning process (specific to the laws and rules of Georgia) and in the planning stages for opening and initial operations. The program consists of 4-6 months of CharterStart workshop sessions (live and via web conferencing), as well as cohort group support, and individual consulting with petitioning groups. Participants will be provided with research-based materials, information, and best practices relative to opening a quality charter school in Georgia. In addition, subject to the limitations herein, GCSA may provide Founders with feedback and technical assistance related to authorizing agencies’ expectations on charter petition drafts and foundation and public grant application expectations.
- 2. CharterStart a la Carte** provides a variety of fee based training modules and services the Founder may elect to build capacity for their charter initiative.

Attached to this agreement is a detailed description of each option.
